Plumfield Nurseries  
FREMONT, NEBRASKA

## TO OUR CUSTOMERS AND AGENTS

This price list cancels all previous lists.

The Plumfield Nurseries was established at Fremont, Dodge County, Nebraska, in 1890.

We are propagators and growers of a complete line of nursery stock under the most favorable climatic conditions. We own and operate some of the best soil in the Platte and Elkhorn Valleys of Eastern Nebraska. We use only the richest and best adapted soils for each particular kind of nursery stock. Our fields are constantly sprayed with high-powered spraying apparatus and kept free from all injurious diseases and insects. Our fields and premises are inspected regularly and each shipment is accompanied by an entomologist certificate of inspection.

Our facilities for packing and handling stock without exposure are of the most modern methods and we have and maintain the most efficient help possible.

### **GUARANTEE OF GENUINENESS**

If any nursery stock, etc., proves untrue to description under which it is sold we hold ourselves in readiness on proper proof to replace all such nursery stock, etc., which may prove otherwise or refund the amount paid; but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

### **TERMS OF PAYMENT**

Cash on delivery, except for Strawberries, perennials and fall bulbs. As these plants will not keep packed very long they must be shipped separately by mail or express. To save extra expense and delay we ask for cash with the order and they will be shipped to you at the proper time, prepaid.

### **SHIPPING SEASONS**

Depend on climatic conditions and not any particular date and you should know that it is to our interest to get our goods to you at the proper time. Our ambition is to serve.

### **REPLACEMENT**

Nursery stock received by purchaser should be planted immediately. If stock should seem dry it should be placed in a tub of water for 24 hours before planting. In case stock should arrive in a frozen condition do not be alarmed, but place the bundle in a cool cellar or bury in the ground. In 24 to 48 hours it will be ready to plant.

Stock which fails to make any *sign* of growth will be replaced free with our next delivery or at the Nursery, except otherwise stated.

### **IMPORTANT**

Your claim for replacements *must* reach our office not later than September 1st following the last planting season, and give name of last *delivery point* as well as your post office.

## SHADE—ORNAMENTAL—NUT TREES

We believe we grow and deliver to our customer about as nice a tree as it is possible to grow. With our rich, loose, well-drained soil and by constantly keeping it built up, we are able to produce a wonderful system of roots, which means all to the planter. Our shade trees are constantly sprayed with a power spray machine and kept free from all pests to trees.

We can quote lower prices on quantities of 25 or more.

## ORNAMENTAL SHRUBS

No lawn or yard, whether large or small, is either complete, attractive or homelike without a certain amount of flowering shrubs.

Properly arranged they in no way encroach upon the lawn. They not only add beauty and adornment, but at the same time can be used as screens to cover unsightly objects or fences, and break the foundation line of the house. They are indispensable, besides lending a cheerful homelike effect. A few dollars spent in shrubs will often add more value to a property than hundreds of dollars spent in other ways.

## ORNAMENTAL SHRUBS—Cont'd

Our shrubs have been transplanted many times, making them first-class plants, and every one will grow and give you the desired effect as soon as you get them planted on your lawn.

Ten per cent discount on ten of any one variety and grade.

## ROSES

Our roses are not to be compared with the lighter grades of young and potted roses that are sometimes offered so cheap. Our roses are all 2 years old and have bloomed and will bloom for you the first season.

The tea rose needs some protection against the first freeze in fall as well as the rest of the winter. It will help all roses to cover them in fall and not uncover them until spring. The rose family is so large that we will not try to list them all, but will try to list some of the best kinds for you to plant.

## PHLOX

The best all round flower in the ground. We are growing some of the best and largest flowered kinds we can find. They all bloom here before we dig them so we know what you are getting. You should not plant less than four of a kind for best results. The following varieties are priced at \$1.25 per four and \$3.00 per dozen:

Champ. Elysses,	Bright rose.
Ed. Rostand	Large, violet and white.
Eclairer,	Bright rosy magenta.
Henry Murger,	Waxy white edges and carmine center.
Jules Sandeau,	Pink.
LaVague,	Mauve with red eye.
Lord Raleigh,	Deep purple.
M. P. Langier,	Favorite. Fiery red.
Miss Lingard,	Earliest. Very long white spikes.
Mrs. Wm. Jenkins,	Tall and thrifty. Pure white.
Pantheon	Deep pink.
Richard Wallace,	White with violet eye.
R. P. Struthers,	Rosy, cherry red.
Special France,	Big. Tender rose, with red eye.
Sir Edw. Landseer,	Light salmony rose—red.
Creeping Phlox,	Pink (makes solid blanket), grows 4 inches high.

## PERENNIALS

### Cash Should Accompany All Orders for Perennials

The kind of plants that give pleasure and beauty soon as the first bloom comes in the spring, until the snow falls. We can't list all of the perennials and their many kinds, but will try to list a few of the most desirable and hardiest kinds and will gladly quote you on any list we receive.

Perennials cannot be packed with trees as they will rot, so we make a special shipment of them by mail or express, and to avoid delay and extra expense we are asking you to pay cash with order for perennials and we will ship when they are ready to plant, prepaid, and guarantee them to reach you in first-class condition.

We list the following kinds at prices so you can afford to order enough to give you the desired effect, which is very hard to get by planting one or two of a kind:

## TULIPS AND HYACINTHS

### Cash Should Accompany Orders for Bulbs

These should be planted in the fall. Our Holland shipments reach us about October 1st. All bulbs look very much alike when you buy them, but a great difference is seen when they bloom, or when they should bloom. We handle none but the very best that can be had. We do not make delivery by agent in fall, but will ship by parcel post prepaid in the fall.

We will mix any of the following varieties at the following rates:
